Okay, I was just about to send the one prepared for the recent groundwater sampling. It is pretty much the same as the one you have, just different names of field workers and type of work. Do you need this for the site visit? I think we can stay on the paved areas mostly, but will be walking up the gravel access road to the Landfill.

Hey Chris,

I have the Sand Blast Area Safety Plan, so no worries on responding to me.

Hi Chris,

Helen and I are still working out the day to come for a site visit. Before that, though, I was wondering if you had a site safety plan or a health and safety plan for Bradford you can share with me. Thanks.
